About **Medsol Diagnostics**

Medsol Diagnostics, a division of Vittals Medicare is an extensive Lab network of repute in UAE known for quality and reliable laboratory services at affordable costs. With a comprehensive collection of diagnostic equipment and facilities we ensure accurate and timely diagnosis to make informed appropriate treatment decisions, better healthcare and improved clinical outcomes.

Our Vision

Our aspirations are clearly focused on becoming the Doctor and patient's choice for quality, accurate diagnostic testing with fast turnaround times.

Based on our reputation for providing premium medical services to hospitals, private healthcare providers, clinics, health insurance providers and the communities of the GCC region, we are confident of making our vision a reality.

One of Medsol Diagnostics philosophies is strict adherence to clinical best practice, which is why we accredit our laboratories through stringent international bodies such as JCI, USA and ISO, the International Organization for Standardization, as well as comply with strict regional health authority regulations.

Our Mission

Continue to develop Medsol Diagnostics as the partner of choice for independent doctors and hospitals across the GCC.

Leverage professional partnerships and Government relationships to further develop our capability and opportunities for vertical integration.

Medsol Diagnostics will be regarded as one of the strongest players in the GCC regional healthcare Market, a pioneering marketing leader in healthcare diagnostics, which uses international best practice and medical expertise.

Our Values

Our values are increasingly important as our business develops. They will be used as a barometer of our behaviors and culture as we grow and our determination to adhere to these values shall cascade throughout all of The Medsol Diagnostics family.

This means simply:

- The freedom to make decisions, to celebrate success and learn from failure.
- The ability to access information and resources in planning for the future.
- Empowerment to consider all options and to celebrate innovation.
- A focus on the teams, our clients and our shareholder interests.
- Positive-thinking about the ability to make change happen.
- Support to learn and access skills for the development of individuals and the company.
- And a resolute commitment to the dignity and health of our patients.

Who We Are

Medsol Diagnostics Laboratories provide full-service anatomic, clinical pathology and radiology services, offering one of the most extensive routine and esoteric testing menus in the Middle Eastern region.

Our aim is to develop and deliver the highest quality comprehensive diagnostic services in the fields of pathology, laboratory and radiology medicine through established and novel diagnostic modalities.

Our pathologist faculty and clinical laboratory teams are a group of dedicated professionals and accomplished experts who provide trusted diagnostic health-care services. We serve and work to improve the delivery of health-care in the community by assisting physicians in diagnosis, treatment and monitoring of disease.

Our laboratories spread over the UAE (Dubai, Sharjah regions) and Kuwait provide services 7 days per week in direct support of the client base that we serve.

Our Services

Our Test Menu offers over 600 tests, using state-of-the-art medical equipment, we are committed to providing STAT services and a rapid turn-around time whenever possible, usually within 24 hours.

Our menu of test areas includes, but is not limited to:

- Chemistry
- Cytogenetic diagnostics
- Hematology
- Immunology and Allergy Testing
- Special coagulation
- Microbiology
- Special chemistry testing including toxicology
- Cytopathology and fine needle aspiration
- Coagulation
- Flow cytometry
- Urinalysis
- Molecular diagnostics
- Surgical Pathology

A woman with long blonde hair, wearing a white lab coat and a red tie, is operating a medical imaging machine. A patient is lying on the machine's table. The woman is looking at a computer monitor. The background is a clinical setting with yellow walls and a blue machine.

Quality Assurance

Medsol Diagnostics Laboratories are committed to delivering reliable and accurate diagnostic services with commitment to highest quality standards, evidence based best laboratory practices paired with our ethical values.

We comply with strict regional Health authority regulations and are accredited through stringent international bodies such as College of American Pathologists (CAP) and Emirates International Accreditation Centre (EIAC) in accordance with the requirements of ISO 15189:2012 standard.

Quality Policy

- Our Laboratories shall provide clinical laboratory testing services of an international standard, consistently and continuously, to patients so as to enable them to receive an excellent level of health and disease management.
- The testing services shall be of a high-quality and we shall constantly strive to improve the standard of care provided by the laboratory.
- Our laboratories have adopted a formal 'Quality Management System' to ensure that we meet our stated goals and objectives.
- The Quality Management System is underpinned by a document that states These standards will comply with or exceed those prescribed by the International Standard for Medical Laboratories as defined by College of American Pathologists (CAP) and ISO 15189:2012 through Emirates International Accreditation Centre (EIAC).
- All laboratory personnel will be trained to understand the requirements of the standard and only those found to be competent to perform to these standards will be permitted to work in the laboratory.
